Course Highlights
This course will provide law enforcement personnel with an accelerated introduction to the constantly evolving dynamics of online criminal investigations. Students will explore unconventional investigative techniques and approaches to conducting online investigations. This course will emphasize learning by doing activities involving actual and relevant case examples of online homicide, robbery, narcotics, property and vice related crimes.

Who Should Attend
This class is designed for any investigator or detective. No technical background is required. Previous students have included investigators, detectives, supervisors, officers, and support staff.

Material Requirements
Students should bring a laptop with Internet capabilities.

Agenda

Day One

1. Foundation of Online Investigations - You can run but you can't hide. Understanding the basics.
