### TRAINING COURSE DESCRIPTIONS

**Title of Course:** **PT001 - Applications for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Applications for Public Safety provides law enforcement with an understanding of applications, their history, and mainstream uses.

**Learning Objectives:** With this course students can access, manage, and query data sets for the purposes of criminal investigations and overall agency benefits.

**Title of Course: PT013 - Analytics for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Assists law enforcement who provide criminal and statistical analysis in areas such as cell phone data and cell tower/site mapping

**Learning Objectives:** With this course, investigators and supervisors should gain insight into the capabilities of analytics so they can be better integrated into investigations and operations. They also learn about discovery and communication of meaningful patterns in data, creating the Presentation, and becoming thought leaders in their field.

**Title of Course: PT003 - Cell Phone Investigations**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Cell Phone Investigations covers search and seizure basics for mobile devices, information available from cell phone companies, and how to obtain it.

**Learning Objectives:** Students will learn about the legal foundation for proper search and seizure of phones and phone company records, how to investigate a phone number from beginning to end, and how to obtain physical evidence from cellular devices.

**Title of Course: PT004 - Craigslist Investigations**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Craigslist Investigations provides the student with an in-depth understanding of how to navigate Craigslist and identify indicators and red flags indicative of criminal activity

**Learning Objectives:** Students will learn how to use innovative and cutting edge methods in obtaining evidence, locating and identifying suspects and conducting online undercover operations involving prostitution, drugs, enticement of juveniles and property related crimes.

**Title of Course: PT005 – Excel for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Excel for Public Safety is designed to help public safety personnel best utilize Microsoft Excel® to successfully manage law enforcement specific data.

**Learning Objectives:** Students will learn about data conversion, charting practices, navigation and manipulation of data, as well as importing/exporting data.

**Title of Course:** **PT006 - Google for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Google for Public Safety provides a primer for understanding the connections between Google, criminal investigation and criminality.

**Learning Objectives:** Students will learn about search engine optimization, cloud computing concepts, Google history and structure, and Gmail.

**Title of Course:** **PT007 - Leadership and Technology**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Leadership and Technology helps law enforcement executives understand how technology fits into their organization.

**Learning Objectives:** Students will learn technology selection, project management, technology implementation, and techniques on gaining buy in from stakeholders and decision makers.

**Title of Course:** **PT008 - Online Investigations**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** In Online Investigations, students explore unconventional investigative techniques to conducting online investigations.

**Learning Objectives:** Students will learn about search warrant procedure, future trends of online investigations, Craigslist as well as exploring illicit activity and advanced search techniques.

**Title of Course:** **PT009 - PowerPoint for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** This course helps all public safety personnel become more efficient and proficient with PowerPoint®.

**Learning Objectives:** Students will learn presentation skills, practice, and preparation as well as customization.

**Title of Course:** **PT010 - Social Media Methods**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Social Media Methods helps personnel and their departments utilize social media effectively to managing their online presence. 51

**Learning Objectives:** Students will learn about Facebook fundamentals, engaging the community, news media management as well as YouTube, Twitter, Google+, and LinkedIn.

**Title of Course:** **PT011 - Tablets and Smartphones for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Tablets and Smartphones for Public Safety provides attendees with the best practices to leverage these tablets and Smartphones in a law enforcement setting.

**Learning Objectives:** Students will learn about security and smart devices, application basics, document management with applications, interacting with IT, and the future of devices and applications.

**Title of Course:** **PT012 - Word and Adobe for Public Safety**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Word and Adobe for Public Safety helps personnel create, manage, share, and protect digital documentation utilizing Microsoft Word® software.

**Learning Objectives:** Students will learn about style guides, security, formatting, integration with PowerPoint®, and writing for law enforcement publications.

**Title of Course:** **PT 014 - Cell Phone Tactics**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Cell Phone Tactics provides personnel with the foundation to leverage cell phones, service providers, and other sources to improve law enforcement's response to critical situations.

**Learning Objectives:** Students will learn about communication options, about the CALEA Cell Site Database, locating a handset, legal considerations, pen registers, and exigent circumstances.

**Title of Course:** **PT015 - Open Source Investigations**

**Length of Course:** 2 Days

**Minimum Number of Participants:** 10

**Maximum Number of Participants:** 40

**Course Description:** Open Source Investigations focuses on crimes that occur in the physical world but have an online component.

**Learning Objectives:** Students will learn about topics such as search engines, online maps, social network traffic, business networks, classifieds auctions, IP hosting, and online forums.

**Title of Course:** **PT015 – In-Service**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40

**Course Description:** An in-service is structured the same way a typical POLICE TECHNICAL course is, but is a day longer and has a higher seating capacity. It is a course purchased outright by a single department or agency for their personnel.

**Title of Course:** **PT017 - Certification Track -- Analytics and Intelligence**

**Length of Course:** 10 Days

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** A certification track is a course package. Analytics and Intelligence consist of the following courses: Analytics for Public Safety, Excel for Public Safety, Cell Phone and Data Mapping, PowerPoint for Public Safety, and an elective course (any POLICE TECHNICAL course not listed).

**Learning Objectives:** Students will gain expertise on criminal and statistical analysis in: cell phone data, cell tower/site mapping, and the general presentation of statistical, digital, and computer related evidence to decision makers and in court.

**Title of Course:** **PT018 - Certification Track -- Applied Applications**

**Length of Course:** 10 Days

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** A certification track is a course package. Analytics and Intelligence consist of the following courses: Google for Public Safety, Excel for Public Safety, Word and Adobe for Public Safety, PowerPoint for Public Safety, and an elective course (any POLICE TECHNICAL course not listed).

**Learning Objectives:** Skills gained from this certification provide a foundation for successful development in all areas of law enforcement. AAP leads to strengthened performance in analysis, administration, documentation investigations as well as public and courtroom presentations.

**Title of Course:** **PT019 - Certification Track -- Leadership and Technology**

**Length of Course:** 10 Days

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** A certification track is a course package. Analytics and Intelligence consist of the following courses: Social Media Methods, Excel for Public Safety, Tablets and Smartphones, Leadership and Technology, and an elective course (any POLICE TECHNICAL course not listed).

**Learning Objectives:** Students will learn technology selection, project management, technology implementation, and techniques on gaining buy in from stakeholders and decision makers.

**Title of Course:** **PT019 - Certification Track -- Leadership and Technology**

**Length of Course:** N/A

**Minimum Number of Participants:** N/A

**Maximum Number of Participants:** N/A

**Course Description:** A certification track is a course package. Analytics and Intelligence consist of the following courses: Google for Public Safety, Craigslist Investigations, Online Investigations, Open Source Investigations, and an elective course (any POLICE TECHNICAL course not listed).

**Learning Objectives:** Students will learn about topics such as search engines, online maps, social network traffic, business networks, classifieds auctions, IP hosting, and online forums.

**Title of Course:** **PT021 - Certification Track -- Cell Phone Investigations**

**Length of Course:** 10 Days

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** A certification track is a course package. Analytics and Intelligence consist of the following courses: Cell Phone Investigations, Cell Phone Tactics, Cell Phone and Data Mapping, Excel for Public Safety, and an elective course (any POLICE TECHNICAL course not listed).

**Learning Objectives:** Students will learn about the legal foundation for proper search and seizure of phones and phone company records, how to investigate a phone number from beginning to end, and how to obtain physical evidence from cellular devices.

**Title of Course:** **PT022 - Online Course -- Applications for Public Safety**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Applications for Public Safety provides law enforcement with an understanding of applications, their history, and mainstream uses.

**Learning Objectives:** With this course students can access, manage, and query data sets for the purposes of criminal investigations and overall agency benefits.

**Title of Course:** **PT023 - Online Course -- Cell Phone Data and Mapping**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Cell Phone Data and Mapping covers methods to view, analyze and present cell phone (and related data sets) data generated from current investigations.

**Learning Objectives:** By the end of the course, students will be confident in their ability to manage and present digital data sets (cell and others) as evidence in court and in special hearings.

**Title of Course:** **PT024 - Online Course -- Cell Phone Investigations**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Cell Phone Investigations covers search and seizure basics for mobile devices, information available from cell phone companies, and how to obtain it.

**Learning Objectives:** Students will learn about the legal foundation for proper search and seizure of phones and phone company records, how to investigate a phone number from beginning to end, and how to obtain physical evidence from cellular devices.

**Title of Course:** **PT025 - Online Course -- Craigslist Investigations**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Craigslist Investigations provides the student with an in-depth understanding of how to navigate Craigslist and identify indicators and red flags indicative of criminal activity.

**Learning Objectives:** Students will learn how to use innovative and cutting edge methods in obtaining evidence, locating and identifying suspects and conducting online undercover operations involving prostitution, drugs, enticement of juveniles and property related crimes.

**Title of Course:** **PT026 - Online Course -- Excel for Public Safety**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Excel for Public Safety is designed to help public safety personnel best utilize Microsoft Excel<sup>®</sup> to successfully manage law enforcement specific data.

**Learning Objectives:** Students will learn about data conversion, charting practices, navigation and manipulation of data, as well as importing/exporting data.

**Title of Course:** PT027 - Online Course -- Google for Public Safety

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Google for Public Safety provides a primer for understanding the connections between Google, criminal investigation and criminality

**Learning Objectives:** Students will learn about search engine optimization, cloud computing concepts, Google history and structure, and Gmail.

**Title of Course:** PT028 - Online Course -- Leadership and Technology

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Leadership and Technology helps law enforcement executives understand how technology fits into their organization.

**Learning Objectives:** Students will learn technology selection, project management, technology implementation, and techniques on gaining buy in from stakeholders and decision makers.

**Title of Course:** PT029 - Online Course -- Online Investigations

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** In Online Investigations, students explore unconventional investigative techniques to conducting online investigations.

**Learning Objectives:** Students will learn about search warrant procedure, future trends of online investigations, Craigslist as well as exploring illicit activity and advanced search techniques.

**Title of Course:** PT030 - Online Course -- PowerPoint for Public Safety

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** This course helps all public safety personnel become more efficient and proficient with PowerPoint®.

**Learning Objectives:** Students will learn presentation skills, practice, and preparation as well as customization.

**Title of Course:** **PT031 - Online Course -- Social Media Methods**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Social Media Methods helps personnel and their departments utilize social media effectively to managing their online presence. 51

**Learning Objectives:** Students will learn about Facebook fundamentals, engaging the community, news media management as well as YouTube, Twitter, Google+, and LinkedIn.

**Title of Course:** **PT032 - Online Course -- Tablets and Smartphones for Public Safety**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Tablets and Smartphones for Public Safety provides attendees with the best practices to leverage these tablets and Smartphones in a law enforcement setting.

**Learning Objectives:** Students will learn about security and smart devices, application basics, document management with applications, interacting with IT, and the future of devices and applications.

**Title of Course:** **PT033 - Online Course -- Word and Adobe for Public Safety**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Word and Adobe for Public Safety helps personnel create, manage, share, and protect digital documentation utilizing Microsoft Word® software.

**Learning Objectives:** Students will learn about style guides, security, formatting, integration with PowerPoint®, and writing for law enforcement publications.

**Title of Course:** **PT034 - Online Course -- Analytics for Public Safety**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Assists law enforcement who provide criminal and statistical analysis in areas such as cell phone data and cell tower/site mapping

**Learning Objectives:** With this course, investigators and supervisors should gain insight into the capabilities of analytics so they can be better integrated into investigations and operations. They also learn about discovery and communication of meaningful patterns in data, creating the Presentation, and becoming thought leaders in their field.

**Title of Course:** **PT035 - Online Course -- Cell Phone Tactics**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Cell Phone Tactics provides personnel with the foundation to leverage cell phones, service providers, and other sources to improve law enforcement's response to critical situations.

**Learning Objectives:** Students will learn about communication options, about the CALEA Cell Site Database, locating a handset, legal considerations, pen registers, and exigent circumstances.

**Title of Course:** **PT036 - Online Course -- Open Source Investigations**

**Length of Course:** N/A

**Minimum Number of Participants:** 1

**Maximum Number of Participants:** N/A

**Course Description:** Open source investigations shows students how to utilize free, unsecured websites to search for real world criminal activity. It's a way to obtain what a criminal posts (names, pictures, videos, conversations) in open, and public forums.

**Learning Objectives:** Through a structured survey of available resources, law enforcement personnel will view, search and manage multiple open source sites and services in the search of criminals and criminal activities.

**Title of Course:** **PT037 - In-Service -- Applications for Public Safety**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40

**Course Description:** Applications for Public Safety provides law enforcement with an understanding of applications, their history, and mainstream uses.

**Learning Objectives:** With this course students can access, manage, and query data sets for the purposes of criminal investigations and overall agency benefits.

**Title of Course:** **PT038 - In-Service -- Cell Phone Data and Mapping**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40

**Course Description:** Cell Phone Data and Mapping covers methods to view, analyze and present cell phone (and related data sets) data generated from current investigations.

**Learning Objectives:** By the end of the course, students will be confident in their ability to manage and present digital data sets (cell and others) as evidence in court and in special hearings.

**Title of Course:** **PT039 - In-Service -- Cell Phone Investigations**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40

**Course Description:** Cell Phone Investigations covers search and seizure basics for mobile devices, information available from cell phone companies, and how to obtain it.

**Learning Objectives:** Students will learn about the legal foundation for proper search and seizure of phones and phone company records, how to investigate a phone number from beginning to end, and how to obtain physical evidence from cellular devices.

**Title of Course:** **PT040 - In-Service -- Craigslist Investigations**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40

**Course Description:** Craigslist Investigations provides the student with an in-depth understanding of how to navigate Craigslist and identify indicators and red flags indicative of criminal activity.

**Learning Objectives:** Students will learn how to use innovative and cutting edge methods in obtaining evidence, locating and identifying suspects and conducting online undercover operations involving prostitution, drugs, enticement of juveniles and property related crimes.

**Title of Course:** **PT041 - In-Service -- Excel for Public Safety**

**Length of Course:** 3 Days

**Minimum Number of Participants:** 40

**Maximum Number of Participants:** 40
